

Aquatic Science Adventures!

Camp Highlights

Adventures Campers:

- Explored a salt marsh and learned about bay food chains
- Visited a creek and met ancient redwood trees
- Explored the rocky shore and learned about bay animal adaptations
- Learned about natural resources and water conservation
- Enjoyed playing in the water at Lake Anza

"I learned that crabs have abdomens!" – Jona

“I loved finding a summer camp that connected to the mission of ecology and stewardship.”

*— Kristina,
Camp Parent*

“It was so cool to see all the life on the buoy and touch the crabs!” – Leo

Thank you for joining KIDS for the BAY’s 2019 Summer Camp!

We had a fun week filled with hands-on science and exciting explorations of the San Francisco Bay Area!
