

KIDS for the BAY

SUMMER CAMP

Aquatic Science Explorers!

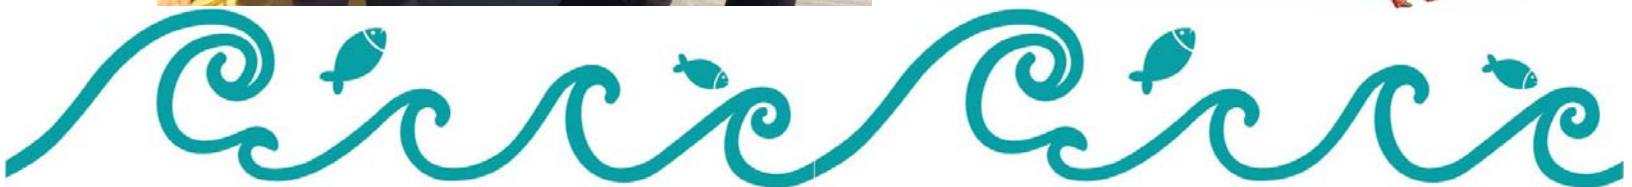

Camp Highlights

Explorer Campers:

- Went kayaking on the bay
- Hiked to a secret waterfall
- Explored the bay shoreline and discovered blue mussels, barnacles and crab exoskeletons
- Completed creek health surveys and water quality testing experiments

"I learned that the thing that brings water to the tree is called sapwood!"

– Amitai

“Being on the water was relaxing for me! It was fun going fast and slow and staying together. It was a great new experience!”
— Jake

“It's amazing! A lot of activities to do, a lot of places to go, fun and educational adventures to explore. My kids love it!”
— Yunju, Camp Parent

Thank you for joining KIDS for the BAY's 2019 Summer Camp!

We had a fun week filled with hands-on science and exciting explorations of the San Francisco Bay Area!
