

KIDS for the BAY

Watershed Action Program 2019 – 2020 Year in Review

In the 2019-2020 School Year:

- **745 Student Environmentalists** took action to improve the health of their watershed
- Students cleaned up **20,615 pieces of trash (424.2 gallons)** from the watershed environment
- Students completed 1,012 environmental stewardship hours to improve the health of their local watershed
- 124 student scientists learned how to make natural pesticides for their school and home gardens
- 26 teachers increased their confidence in using the local watershed as an educational resource
- 26 teachers received tailored Distance Learning lessons to complete the program after school closures

"Students developed skills to understand where they live in the world and how important it is to take stewardship actions in their community. The students even created a leadership club to continue supporting the campus cleanup." -Tracy Dordell, Third Grade Teacher, New Highland Academy, Oakland

Everyone is an Environmentalist!

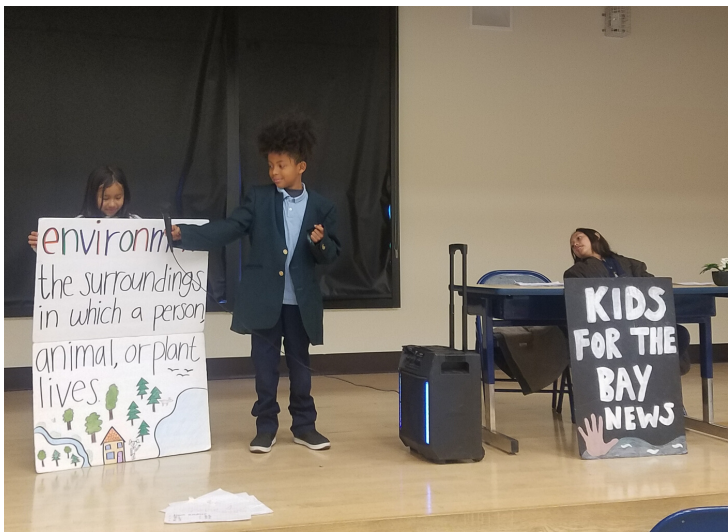

Classroom Lessons

"I loved holding the crab! I learned all it's different parts! Another way to say claw is 'dactyl'."

– Jayla, Third Grade Student, Manzanita Elementary School, Oakland

Action Projects

"I hope the audience learned that pollution is a serious issue and we need to take action to save our environment!"

– Reej, Fifth Grade Student, Lupine Hills Elementary, Hercules

Distance Learning Field Trips

Slide from a Distance Learning Field Trip lesson to Muir Beach for students at Manzanita Community School in Oakland. Students learn about birding at the beach!

Everyone is an Environmentalist!
