

# KIDS for the BAY

## Storm Drain Rangers 2021-2022 Year in Review

In the 2021-2022 School Year:

- 399 students educated their communities about reducing storm drain pollution
- Student Environmentalists cleaned up 4,634 pieces of trash (249 gallons) from their local neighborhoods
- Student-led schoolwide assemblies inspired 268 students, 12 teachers and six school principals to protect the local watershed
- 399 families engaged in interviews about storm drain pollution prevention with their students

## Everyone is an Environmentalist!

## Classroom Lessons

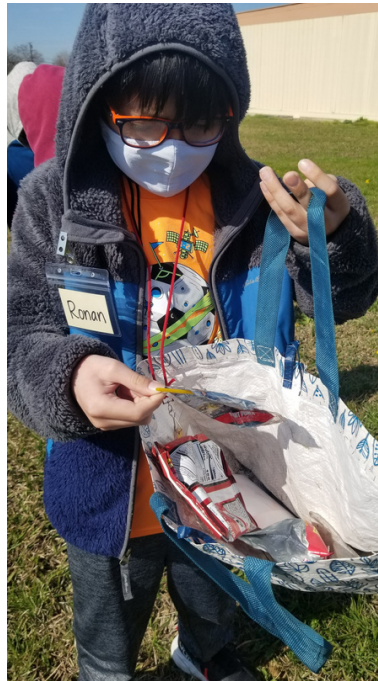

"This model really shows us how we are all connected in the same watershed and that our actions affect each other."

Vivian, Fourth Grade Student,  
Longwood Elementary School, Hayward

## Campus Clean Ups

"It's important that we keep our world clean and healthy. If people litter it can get into storm drains which lead to oceans, bays, ponds, and creeks. The litter can hurt marine animals like turtles and whales."

Kaydee, Fourth Grade Student,  
Del Rey Elementary School,  
San Lorenzo

## School-wide Assemblies

"They're going to remember this program more than anything I taught them all year!"

Julie Wolfe, Fourth Grade Teacher,  
Grant Elementary School, Hayward
